

WE HOPE YOU'LL JOIN OUR DENTAL FAMILY OF FRIENDS

Our goal is to provide our patients quality dental care with an old-fashioned touch of kindness. With our conservative approach, we work to offer the services YOU want to maintain healthy teeth and gums – and help give you the smile of your dreams! We are always happy to have new faces become a part of our dental family. We would love to have you join us.

WE LOOK FORWARD TO SEEING YOU.

Tomorrow's Technology Today!

- Laser gum disease treatment – *As Seen on FOX News*
- Water Laser – usually with no pain and no need for needles.
- Dental Implants for missing teeth
- Porcelain Veneers for crooked or stained teeth
- PERIOSTAT® – The main cause for tooth loss is NOT decay – it's periodontal (gum) disease! Periostat is an FDA-approved tablet we prescribe to help arrest your gum disease.
- Intra-Oral Camera - So you see what we see
- Laser Cavity Detection – Find ultrasmall cavities.
- Sedation Dentistry – Relax through your entire visit!
- Mercury-free white fillings
- VELscope™ oral cancer screening
- Air Abrasion – Mist away decay, no shots needed!
- Headphones for additional comfort
